

jaktkit

The edge

jaktkit

It all started in Kalmar. A Swedish city so stony and harsh that its ancient name includes both "cairn" and "gravel islands".

Its geopolitical importance in the Baltic Sea made it a constant battle ground since middle ages.

Kalmar castle was under sieges no less than 22 times. Never surrendered.

Its inhabitants resilient and stubborn.

A perfect location for an unconventional company dedicated to break new ground in knife making.

Welcome to our world!

//Magnus Collin

jaktkit

You don't walk
alone

Jaktkit knives aren't made to impress.

Aren't designed to please.

Instead. jaktkit knives have become favoured tool among truly distinguished people around the world.

You recognize them, they recognize you.

When you put your jaktkit knife in your belt you don't walk alone.

jaktkit

You deserve to be special

Our ambition was never to make a knife.

It was to make *The knife*.

Every Knv knife is tested to meet 89 specific performance requirements. Small details that make Knv knives different from other knives.

We are truly humble and honoured that our Knv knives have been so well received.

We are allowed to disclose that Piketen - a special operations unit of the Swedish Police - were among the first to select Knv knives for test.

2016 Knife Knv2 received the highest test score among Swedish knives from reputable Dutch Bushcraft.nl, in strong competition with quality knives from Fallkniven (A1, F1 & S1) and Morakniven (Pathfinder & Tactical SRT)

Not loved by everyone, but favoured in test after test.

Jaktkit knives are for you. You deserve to be special.

The logo for Jaktkit, featuring the word "jaktkit" in a stylized, italicized font. The letters are dark green with a lighter green outline and a slight shadow effect, giving it a three-dimensional appearance.
